

IBERIABANK Expansion in New Orleans

PRNewswire
NEW ORLEANS

IBERIABANK is pleased to announce the expansion of their commercial and retail divisions in the Greater New Orleans area. This growth comes as part of the strategic plan the bank recently outlined in their annual report, which highlights their commitment to be the best performing commercial bank.

Included in this expansion process is the impending move of the bank's New Orleans headquarters in Gretna, to the Pan American Life Building in the Central Business District of New Orleans. This location in the CBD should provide significant benefits to the bank as well as the people in the area, including branch services (pending regulatory approval), a central location for customer calling activities, and expanded commercial and private banking opportunities.

Critical to the success of IBERIABANK's commercial strategy are the people responsible for its implementation. With that in mind, IBERIABANK has assembled the following team of experienced, professional commercial bankers dedicated to providing true relationship banking to their clients. Executive Vice President and Commercial Banking Manager, Karl Hoefer, manages the New Orleans commercial division of IBERIABANK. Gerry Gilbert -- Senior Vice President, Tony Adams -- Vice President, Erin Fremin -- Vice President, and Holly Popham -- Vice President, serve as Commercial Relationship Managers for the team. Collectively, these commercial bankers bring over fifty years of experience and extensive knowledge of the New Orleans market to the bank.

As their customer base continues to grow in New Orleans, IBERIABANK will be focused on expanding their branch network to best meet the needs of their clients.
